

At Work in Oregon

NMDPSM is a leader in cell therapy, helping to find cures and save lives for patients with blood cancers, disorders and beyond. We're expanding access so that every patient can receive their life-saving cell therapy. Here's what our work looks like in your state:

2023 State Impact

948 searching patients

from 2019-23

417 transplants

from 2019-23

236 donors

answered the call from 2019-23

68,697 residents

willing to donate

Your support helps push the boundaries of what's possible.

From the moment a patient is diagnosed, we're there every step of the way. We create more opportunities for better outcomes. One way we do this is by providing patient assistance grants to help families cover out-of-pocket expenses related to transplant.

Since these grants became available, **101 patients in Oregon** have received financial assistance totaling **\$206,050 to help more patients** go through the transplant process. Of these patients, **23% were children.**

NMDP Network Partners in Oregon

APHERESIS CENTER

- Legacy Good Samaritan Medical Center

COLLECTION CENTERS

- Legacy Good Samaritan Medical Center

TRANSPLANT CENTERS

- Oregon Health & Science University

2023 National Impact

- Since 1987, NMDP has facilitated more than **125,000 transplants**. In 2023, NMDP **impacted 7,435 lives** through cell therapy.
- Today, patients have access to more than **41 million** potential donors worldwide.
- In 2023, NMDP provided **\$5.5 million** in patient assistance grants to more than **2,600 families**.

World-Class Partner

With the help of blood cell and marrow donors from the world's most diverse registry and our extensive network of transplant partners, physicians and caregivers, we're expanding access to treatment so every patient can receive their life-saving cell therapy. We strive to deliver the best experiences and services as the essential partner in cell therapy and remove the barriers to equitable access at all our locations.

4 Domestic Donor Centers

59 Domestic Collection Centers

73 Domestic Apheresis Centers

156 Domestic Transplant Centers

48 International Cooperative Registries

NMDP is a global leader in cell therapy.

- **Entrusted by Congress for 35+ years:** Since the inception of the C.W. Bill Young Cell Transplantation Program (the national registry), Congress has authorized NMDP to oversee the program.
- **NMDP finds cures and saves lives.** NMDP manages the most diverse listing of potential donors in the world (the national registry).
- **We treat and cure over 75 diseases** through cell therapy.
- **Accelerating Progress:** Underscoring NMDP's commitment to expanding access to cell therapy, we recently published findings showing that using expanded matching criteria could result in a nearly three-fold increase in the likelihood of securing a suitable donor. This breakthrough dramatically increases the chances of finding a match on the national registry, offering cell transplantation as a viable, life-saving therapy, regardless of ancestry.

Cynthia
Recipient, Oregon

When Cynthia was embarking on a career in international humanitarian work in 2009, she was diagnosed with chronic myeloid leukemia (CML). Three years later, her cancer had progressed to the point that she needed a life-saving bone marrow transplant, but she did not have a match in her family. Cynthia turned to the national registry to search for a donor.

"I woke up every day with a 20% chance that my disease would go into a phase where I would no longer be eligible for transplant." Her daughter, who was in law school at the time, was concerned that Cynthia might not survive long enough to even see her graduate.

Fortunately, NMDP was able to find a match on the registry for Cynthia. Though her donor Kelly was contacted during the holiday season and was managing four young children at home, she didn't hesitate to answer the call to save a stranger's life. Kelly kept the commitment she made 20 years ago when she originally joined the registry while attending university.

Cynthia received her life-saving cells on 12/12/12 along with a note from Kelly that read "I hope this gives you more, more of whatever you need in life." One year later, Cynthia was able to meet Kelly and start a friendship that is more than 10 years strong.

Today, Cynthia asks lawmakers to "give the opportunity of more" to searching patients and their families.

**"I was given more. More moments.
More sunsets. More smiles, laughter,
experiences and time with my daughter.
Thank you is never enough."**
